- UNESCO (Chair : Sex Health)

Welcome

Dear Friends and Colleagues,

The 16th World PAG Congress promises to address cutting edge topics in the increasingly dynamic field of PAG.

In the plenary lectures, symposia, and round table discussions, PAG will be examined from the perspectives of Obstetric, Gynecology, Endocrinology, Pediatrics, Surgery, Genetics, Psychiatry, Epidemiology, Sociology and Public Health.

Attendees will note that this congress offers three principal orientations :

- diagnostics and management
- recent progress
- public health issues

to be presented by internationally renowned specialists.

In order to optimize the opportunities for fruitful exchanges with these world opinion leaders in PAG, both time and space will be dedicated to the participants. Even more so than in the past, we hope that this World Congress will bring together PAG specialists from all five continents !

The Scientific Committee will select submitted papers for oral presentations or posters.

You may perhaps know that Montpellier is a beautiful city with the oldest School of Medicine in the world.

The end of May is an ideal time of year for wandering through the medieval part of town.

With great enthusiasm, I encourage you to come to the 16th World PAG Congress and share your experience with us.

Professor Charles SULTAN

President of the Congress

A handwritten signature in blue ink, appearing to read 'Charles Sultan'.
